

STUDY PROGRAMMES

What are they?

They are education and training programmes that are available for learners aged 16-18 (up to 25 if you have an EHCP). They support learners to gain vocational / technical qualifications as well as wider skills needed for employment or further education and training.

Why are they important?

Study programmes are designed around you as a learner, your prior achievements so far and where you hope to go in a career. They are called Study Programmes because they offer so much more than just a qualification - they consist of other key elements which together create a package of learning around you and your requirements.

What do they comprise of?

Your study programme is relevant to industry requirements, skills, knowledge, behaviour and occupational standards across a wide range of career areas to help prepare you for your future career.

Your study programme will have 6 key elements:

- English
- Maths
- Main technical and professional qualification
- Development of employability skills and work-related experience
- Personal and professional development
- Group and personal tutorial

Please note: In order to gain your overall qualification, you must pass and attend all elements of your study programme.
